andrei@aply.tech
aply.tech

Summary

Full-stack developer taking projects from Figma to deployment — clean, maintainable code with a strong focus on performance and WCAG accessibility. Background spans React, Next.js, PHP, and headless WordPress, shaped by real client work and a practical problem-solving mindset. Currently pursuing a CS degree and ready to contribute from day one.

Skills

Stack: JavaScript, PHP, Python, React, Next.js, Svelte, Redux, WordPress, Twig, GraphQL, REST, Sanity

Tools: HTML, CSS, SCSS, Figma, Git, Axe DevTools, Siteimprove, WCAG Compliance, SQL, ACF

Work Experience

U.C.P.N.B. – Cypress School | Teacher's Aide January 2023 – Present

- Tracked behavioral patterns in Ensora, maintained progress notes, and communicated findings to behavioral and speech therapy teams.
- Floated across multiple classrooms to support students in crisis, helping reduce behavioral incidents through consistent intervention.

Computer Courage | Junior Full Stack Developer April 2022 – December 2023

- Developed and launched 4 production websites from Figma mock-ups using WordPress and React.
- Ensured WCAG compliance across all sites using Axe Dev Tools and Siteimprove, leading to accessibility improvements and fewer client revisions post-deployment.
- Deployed sites for high-profile clients including Berkeley Human Rights Center and HAAS Fund; maintained legacy codebases to modern accessibility and performance standards.

BestBuy – Geek Squad | Consultation Agent July 2019 – April 2022

- Diagnosed and resolved hardware and software issues for customers, managed service tickets, and translated technical problems into clear communication for customers and internal teams.

Projects

aply.tech — Portfolio Site 2025 – Present

Personal portfolio designed and built from scratch with Svelte, SCSS, and Sanity CMS — structured around three project tracks with a focus on performance and accessibility.

Svelte, SCSS, Sanity, JavaScript

UC Berkeley Human Rights Center 2022 – 2023

Built a custom WordPress platform with a taxonomy and theming system to support flexible content organization, scalable content types, and long-term maintainability for non-technical users.

WordPress, PHP, Twig, ACF, JavaScript, SCSS

Haas Fund Pitch — UC Berkeley 2022 – 2023

Internal tool replacing static PDF workflows with an interactive, data-driven presentation system using vanilla JavaScript and HTML5 Canvas to deliver alumni funding pitches.

WordPress, JavaScript, HTML5 Canvas, Twig, ACF, SCSS

Education

Santa Rosa Junior College A.S. in Computer Science (In Progress) 2024 – Present

Lambda School (now BloomTech) Full Stack Web Development & Computer Science 2019 – 2021
